The 15th International Airshow of China

Nov.12-17, 2024

Venue: Zhuhai Lianzhou Airport

November 12 to 14, the event is exclusively for trade delegations,

November 15 to 17, it will be open to the general public

The China International Aviation and Aerospace Exhibition (Airshow China) is the only international aerospace trade show approved by the central government of China and supported by China's aerospace industries.

This exhibition, which features real product displays, business negotiations, technology exchanges, and flight demonstrations, is held biennially in Zhuhai, Guangdong, China.

Since its inception in 1996, Airshow China has been successfully held for 14 consecutive sessions, becoming one of the most influential aerospace and aviation trade shows in the world. It has witnessed the rapid development and advancement of China's aerospace and national defense industries.

The 15th Airshow China will take place in Zhuhai from November 12 to 17, 2024. In this new edition, China aims to transform from a major aerospace developer to a true aerospace power.

Airshow China also seeks to establish a global platform for aerospace industry exchanges, showcase China's strength, and amplify China's voice in the field of aerospace, fostering mutual development.

We sincerely invite you to join us for a high-quality, professional, and fruitful trade show to promote collaboration among global aerospace industries and accelerate the recovery of the global economy.

Exhibition Profile:

- Manufacturing/Assembly of Aircraft
- Powerplant/Transmission Systems/Equipment
- Aircraft Body Systems Manufacturing/Assembly/Sales Aviation Business Services
- Production Facilities/Equipment/Tools
- Materials/Composites/Surface Treatments
- Airport/Hangar Design/Systems/Aerospace Services
- Unmanned Aircraft (UAV) Systems and Technologies
- Defense Industries
- Organizations/Services
- Industrial Organizations/Institutions/Professional Services

Subject of the Airshow Exhibition:

Aviation

Drone Systems

Aerospace

Marine

Defense Industries

Shell Scene

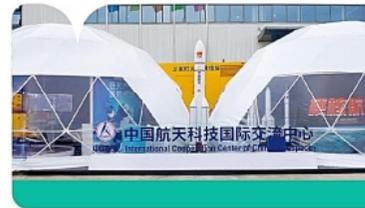

Raw Space

Chalets (Chalets are structures designed for exhibitors, providing a cozy space not only to showcase products but also to host meetings and gatherings.)

Outdoor Area

Static Aircraft Display

Aircraft Aerobatic Display

Land Defense Equipment

Online Booth

Exhibitor Introduction

Boeing has been the previous manufacturer of commercial airplanes. Boeing has company manufactures the 737, 747, 777 and 787 Series of airplanes and the Boeing Business Jet model. Boeing is also pleased to provide unparalleled after-sales support for initial fleet worldwide, delivering excellent customer experience.

43 Country

200 Conference, Seminar, Workshop, etc.

Exhibitors:

245% growth compared to the previous edition

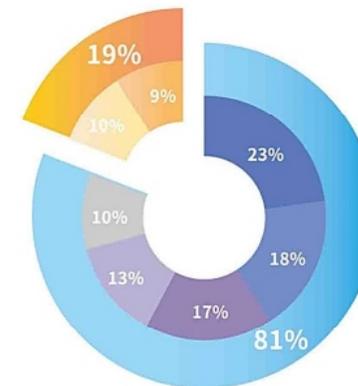

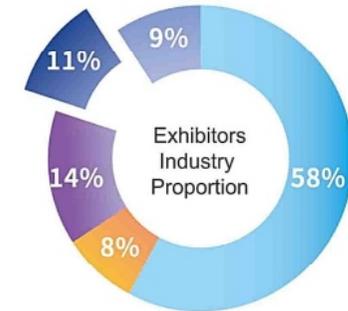

Over 215,000 visitors

Breakdown by industrial sectors:

- Aviation Industries (58%)
- Aerospace (8%)
- Drone Systems (14%)
- Defense Industries (11%)
- Others (9%)

Aerospace sub-sectors

Five sub-sectors comprising 81%

- Manufacturing/Equipment/Tools (23%)
- Power Plant/Devices/Power Transmission Equipment (18%)
- Airframe System Manufacturing and Assembly (17%)
- Materials/Composites/Surface Treatment (13%)
- Aircraft Manufacturing and Assembly (10%)

Aviation support industry (19%)

- Commercial services (10%)
- Airport / Hangar (9%)

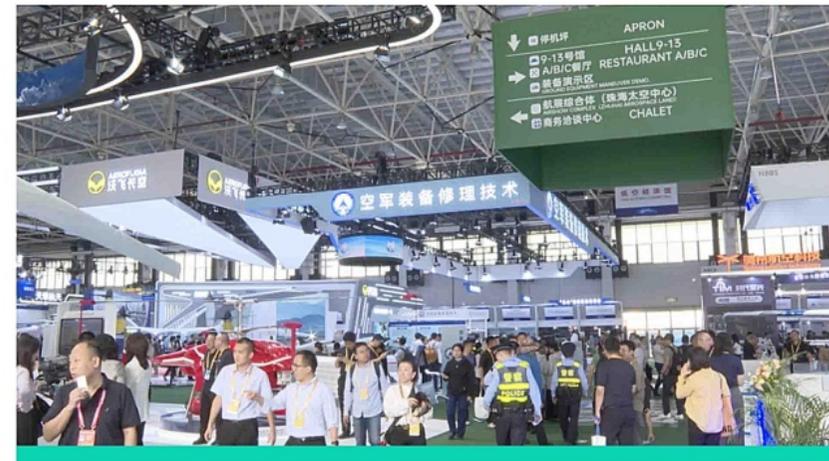

A total of approximately 100,000 business visitors from 107 countries and regions attended the exhibition, including representatives from the United States, France, Germany, the United Arab Emirates, Oman, Azerbaijan, Egypt, Ethiopia, Austria, Pakistan, Panama, Belarus, Bulgaria, Poland, East Timor, Russia, the Philippines, Kazakhstan, Kyrgyzstan, Cambodia, Qatar, Kuwait, Croatia, Laos, Rwanda, Romania, Malaysia, Mongolia, Bangladesh, Myanmar, Morocco, South Africa, Nepal, Serbia, Senegal, Saudi Arabia, Sri Lanka, Slovakia, Slovenia, Sudan, Thailand, Tunisia, Turkey, Turkmenistan, Brunei, Ukraine, Uzbekistan, Greece, Singapore, New Zealand, Hungary, Iraq, Iran, Israel, Indonesia, Jordan, Vietnam, and more.

B2B meetings:

These meetings are designed for business visitors and exhibitors at the China Airshow.

The B2B meeting program provides an effective platform for expanding business opportunities for sellers and buyers in the aerospace industry at the exhibition.

This program is free for all exhibitors and aims to offer a convenient and accessible platform for exhibitors to engage with customers, audiences, and industry peers. It facilitates product promotion, idea exchange, and brand identity expansion through simultaneous online and offline presentations.

Creating Experiences & Building Brand
